

Fleas - Indoor infestation

WHAT YOU NEED TO DO BEFORE WE TREAT

- Clean up any clothes/blankets and put them through a heavy wash cycle.
- Vacuum any carpets and/or rugs thoroughly.
- Bathe any pets with flea medicated shampoo. (Dawn dish soap will also kill fleas, and flea eggs)
- Clean up any clutter in infested areas or rooms so technician can treat the floor.

IMPORTANT: Always show technician where pets sleep, rest, lay, or spend most of their time. That will likely be where fleas lay most of their eggs.

NOTE: Furniture & Appliances – Our technicians aren't allowed to move your furniture or appliances. If the pest problems are in or around them, please have them moved so we can treat those hard to reach areas. If you're in an apartment, please reach out to maintenance regarding moving your appliances.

WHAT YOU NEED TO DO AFTER WE TREAT

- Vacuum daily for the next week to help stimulate the hatching cycle of any flea eggs.
- Bathe pets weekly at a minimum to keep fleas from infesting or re-infesting your pets.
- Vacuum out pet beds, sleeping and/or resting areas inside your home. (Bedside, blankets, couch, etc.)
- Update our office of progress 1-2 weeks after treatment.

REQUIRED FOLLOW UP TREATMENT

Contact our office to schedule a required (no additional cost) 3-4 week follow-up treatment. This is vital to getting ahead of their reproductive cycle. You must be home so we can re-treat inside. Although this treatment is free, we may do it on the same visit as your regularly scheduled quarterly treatment.

NOTE: For new customers on a quarterly pest plan - This follow-up treatment for fleas will happen on your first 30 day quarterly treatment unless the problem is severe. In that case, we can do a follow-up treatment just for the fleas before your first quarterly treatment. Either way, your first quarterly treatment will still occur after 30 days from your initial treatment in order to treat for all the other pests included with your quarterly pest service. Your quarterly treatments will be automatically scheduled by Valor.
